

Please do not bow to the wishes of corporations that wish to harrass consumers with volumes of unwanted calls. WI has a no call list and it has been wonderful. I can answer the phone, eat meals in peace and generally know that when the phone rings it's someone I actually want talk to! Your wishy washy excuse for a proposal is anti-family and allows corporations even greater latitudes to intrude on our lives. I know where to go and who to call if I want to make a purchase. I don't need a come on phone call. Please reconsider your proposal and respond to the wishes of individuals and families who wish to live in peace.
